

Graywater Recycling

Save Money, Water & the Environment

Graywater Benefits

Costs	Environmental	Financial
Without graywater	192,000 gallons / year	\$2045 / year
With graywater	112,500 gallons / year	\$1325 / year
Savings	79,500 gallons / year (41% savings)	\$720 / year (35% savings)

- Water use for a household of four (4) with a medium-large yard
 - www.sandiego.gov/water/pdf/conservation/waystosavewater.pdf
- City of San Diego water and sewer rates
 - www.sandiego.gov/water/rates/rates.shtml
- All water saved can be used for landscaping at 80% efficiency
- Use of graywater will:
 - reduce demand on water supplies
 - enhance groundwater recharge
 - reduce energy use & chemical pollution -- less reliance on sewage treatment systems
